Education

Diploma in ICT Application development (Dip) [2021]

University of Mpumalanga

I hold a 3-year diploma in ICT from University of Mpumalanga. Through this program, I gained a deep understanding of computer systems, programming languages, and database management.

I also gained practical experience in networking, including designing and implementing network infrastructures, configuring network devices, and troubleshooting network issues. Additionally, I developed skills in analyzing and solving complex technical problems, working collaboratively on team projects, and communicating technical concepts to non-technical stakeholders.

Certificates

CompTIA N+

- I have a solid understanding of networking concepts, including TCP/IP, routing, switching, and network design.
- Proficient in configuring and troubleshooting common networking protocols, such as DHCP, DNS, and SNMP.
- Experience working with network security technologies, including firewalls, VPNs, and intrusion detection/prevention systems

Experience

Ekhonnector

Software developer   09/08/2022- 28/02/2023

As a full-stack developer, I developed web, mobile, and desktop applications using C#, SQL, HTML/CSS, PHP, and Flutter. I collaborated with cross-functional teams to identify and troubleshoot software issues and improve overall application functionality

University of Mpumalanga

IT student support   01/03/2021- 28/02/2021

I was assigned to work with a university technician during your last year at university. Your tasks include installing software on the university computer labs, assisting students with resetting passwords, and helping university staff with their computers when needed
